

KURT MICHAEL L. MIRAFELIX

Cavite, Philippines | kurtmichael.mirafelix@cvsu.edu.ph |
kmirafelix@gmail.com | +63 952 481 6282 | [GitHub](#) | [LinkedIn](#) | [PawPal](#)

EDUCATION

Cavite State University (CvSU)

Bachelor of Science in Computer Science

President's Lister (Freshman-Present)

Expected 2027

GWA: 1.14 (1.00 = highest)

SKILLS

Frontend: TypeScript, React, Tailwind CSS, HTML5, CSS3, Vite, PHP, JavaScript

Data/Analysis: Python, Jupyter Notebook, Pandas, NumPy, Matplotlib, scikit-learn

Backend/DB: Supabase (Postgres, Auth), SQL, REST APIs

Services: Firebase, Cloudinary

Dev Tools: Git, GitHub

PROJECTS

PawPal — Pet Community & Records (Installable PWA) |

Dec. 2025 – Jan. 2026

React, TypeScript, Tailwind, Supabase, Firebase, Cloudinary

Live Demo: [PawPal](#)

- Led end-to-end delivery for Youth For Animals (PAWS Philippines university cluster), managing requirements gathering, feature prioritization, and stakeholder communication.
- Developed core application modules including the community feed, pet profiles, medical records, and group chat, iterating directly on user feedback.
- Integrated Cloudinary for media uploads and Firebase for push notifications to support community engagement.
- Engineered the messaging architecture, optimizing data access patterns to reduce load times from ~40s to <200ms.

Hype — Event Manager & Ticketing Platform |

Nov. 2025

React 18, Vite

- Contributed to the UI/UX design and frontend implementation for a marketplace platform focused on second-hand ticket sales and live auction mechanics.
- Developed the initial responsive interface under strict time constraints during the C(Old) (ST)art Hackathon, subsequently leading the final product pitch and Q&A.

Real Estate Price Prediction Model (Academic Project) |

May 2026

Python, Pandas, scikit-learn, Seaborn

- Developed a multiple linear regression model to predict real estate sale amounts based on assessed property values and categorical property types.
- Performed data cleaning and feature engineering, utilizing one-hot encoding for categorical variables.
- Evaluated model performance using Mean Squared Error (MSE) and R-squared metrics, and visualized prediction variance using Seaborn and Matplotlib.

CERTIFICATIONS / TRAINING

Cisco Networking Academy — Introduction to Cybersecurity |

Completed May 2026

Cisco Networking Academy — Cyber Threat Management |

Completed May 2026

HACKATHONS

C(Old) (ST)art Hackathon — Old.St Labs | Participant

Nov. 23, 2025

Contributed to UI/UX design and implementation, and led the final pitch.
